

1. Reading and writing to a Json file
 - a. Reported on 11/6/2020
 - b. Luke Springett
 - c. The frontend was having a problem with reading from the from the file the backend was sending to it
 - d. Fixed on 11/6/2020
 - e. Luke Springett
 - f. This was fixed by removing the file component all together and sending the data to the backend directly. The backend would then send the new data back to the frontend directly
2. Iframe not updating song correctly
 - a. Reported 11/7/202
 - b. Luke Springett
 - c. Index issue with Iframe
 - d. Fixed 11/7/2020
 - e. Luke Springett
 - f. Fixed by updating the index
3. Adjusting graph container
 - a. Reported on 11/7/2020
 - b. Luke Beesley
 - c. Graphing container was not in the right position
 - d. Fixed on 11/7/2020
 - e. Luke Beesley
 - f. Adjusted the container to be on the right side of the screen
4. Songs with the same ID write over each other
 - a. Reported 11/5/2020
 - b. Peyton Doherty
 - c. Same song IDs would right each other in the new dictionary
 - d. Fixed 11/6/2020
 - e. Luke Springett
 - f. Instead song IDs each song was given a different number (e.g. 1,2,5)
5. The heuristics for the clusters
 - a. Reported 11/5/2020
 - b. Grant Holmes
 - c. The heuristics for the clusters were not working correctly
 - d. Fixed 11/5/2020
 - e. Grant Holmes
 - f. Inverted average cluster size
